

The background features three horizontal, wavy bands of green. The top band is a light, pale green. The middle band is a medium green. The bottom band is a dark green and contains the text.

Green Community Grants

**Climate and Ecological Emergency
Dacorum Borough Council**

Purpose and aims

- **Energy in buildings:** reduce energy consumption, improve energy efficiency, or promote renewable energy solutions within buildings.
 - **Sustainable transport:** environmentally-friendly travel options, such as walking, cycling, shared transport schemes, or the use of low-emission vehicles.
 - **Biodiversity and nature recovery:** Efforts to protect and restore natural habitats, support wildlife, and increase green spaces.
 - All projects must engage with or benefit the local community. Those with the most impact will receive funding.
- 

Going Forward

- The 2024/25 round of grants has just closed.
 - 24 applications received, being scored.
 - Increase of grant available (previously only £3k, now including £5k and £10k)
 - Funding secured and guaranteed to run at least once a year going forward to 2030.
